

To whom it may concern

July 14, 2011

Declaration

As of June 2007, the European Regulation EC/1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force and affects all industries. At Anamet Europe BV we are fully aware of this REACH regulation and the communication needs along the supply chain.

Anamet Europe does not produce chemical substances, nor does Anamet Europe import chemical substances from outside the European Community in quantities over 1 tonne per year; Anamet Europe belongs to the group of "Downstream Users", i.e. user of substances to produce articles, like protective conduit and fittings.

We have been working closely together with our manufacturers of substances in the products we supply to you, as well as with actors further up our supply chain, to meet where needed, the deadline for pre-registration, being December 1st, 2008.

We are glad to announce, that **also under the Reach-Regulation, the continuity is assured, of the complete Anamet Europe product program!**

We also declare that the products that Anamet Europe BV is delivering, do not contain any of the 46 Substances of Very High Concern (SVHC).

For more detailed information about the REACH subject, please refer to the following site:

We trust to have informed you sufficiently, but if any questions left, please don't hesitate to contact the undermentioned.

Anamet Europe BV

Ing. R.W. Guichelaar
Technical Manager
